### Profile

A passionate, self-motivated, adaptive second year seeking a position in Software Engineering and Web Developer Internship to maximize the experience with a professional working environment, Agile Methodology, and emerging technologies in the software industry. During my studying at Swinburne, I had the opportunity to work on commercial projects to enhance my knowledge and skill in the IT career. Currently, I am working as a front-end developer, specializing in Java and VueJS. I am open to all opportunities, enthusiastic about new technologies, and willing to take on all challenges.

### Professional skills

Database	MySQL, MongoDB, Postgresql
Programing Language	HTML, CSS, JavaScript, ReactJS NodeJS, Typescript, NestJS, NextJS
